

*Farm Campus of HorseClass
80 King Rd, Honey Brook, Pa 19344*

We are looking for: Farm Manager

Description:

This position requires working knowledge and skills around a farm. You need to be able to fix fences, plant posts, drive a tractor, hook up electric fences, and various other farm tasks as well as daily care of horses.

Our Farm Manager is also responsible for the schedules of other barn staff as well as communicating with our boarding clients.

This requires having a high standard for cleanliness and organization as well as working with staff and clients.

This position requires the experience and initiative to see what needs done and take care of it. If you like to work from a to-do list someone gives you, this is not a good position for you.

Having horse experience is a plus but is not a requirement if you have worked with other livestock and are willing to learn.

Example Responsibilities:

- Maintaining fields
- Maintaining farm buildings (coordinating repairs and maintenance as needed)
- Fixing fences
- Feeding horses
- Cleaning stalls
- Caring for injured horses
- Ordering hay, feed, and other supplies
- Creating work schedules for other barn staff
- Communicating with boarding clients about their horse's care

Honey Brook Stables is the farm campus for HorseClass, an online education provider for all things horses, riding, and training. HorseClass has a global audience and community, and many of our events are attended by our students from all around the world.
